MOHAMMAD IFRA

Python Full-Stack Developer | Generative AI

Hyderabad, India | +91 9322539796 | ifranaaz2020@gmail.com

Portfolio | LinkedIn | GitHub | LeetCode

SUMMARY

Computer Science Engineering graduate (B. Tech, CGPA 8.32/10) and **Python full-stack developer** who builds database-driven web applications with Django, React, and MySQL. Hands-on with REST APIs and Generative AI, including a locally hosted LLM chatbot built on Ollama. Seeking a Software Engineer / Python Developer role to ship reliable, scalable features.

TECHNICAL SKILLS

Languages: Python, C, JavaScript
Frontend: React, HTML5, CSS3
Backend: Django, RESTful APIs
Databases: MySQL, MongoDB
AI / ML: Generative AI, LLM and RAG, Prompt Engineering, Ollama, Pandas, NumPy
Tools: Git, GitHub, CI/CD, PyCharm
Core CS: Data Structures & Algorithms, OOP, Database Management, SDLC

EXPERIENCE

Python Full-Stack Developer Intern | *Orbit IT Solution* *April 2026*

- Built full-stack web application components with Python, Django, HTML5, CSS3, JavaScript, and MySQL, delivering responsive interfaces backed by database-driven functionality.
- Developed backend logic and integrated MySQL with Django, and worked with RESTful API design while debugging issues across the full application life cycle (SDLC).

PROJECTS

AI-Powered Chatbot | GitHub *Python, Django, Ollama, MySQL, JavaScript*

- Built a full-stack chatbot that generates **LLM responses with Ollama** and delivers them through a real-time messaging interface.
- Designed MySQL storage for **persistent conversation history**, with chat rename and delete features for managing past sessions.

Leave Management System | GitHub *Python, Django, React, MySQL*

- Developed a web app that **digitizes employee leave applications and administration** with Django and a React front end.
- Implemented leave submission, status tracking, **approval/rejection workflows**, and employee profile management on MySQL, and tested each core flow end to end.

E-Commerce Website *Python, Django, HTML, CSS, JavaScript, MySQL*

- Built a shopping site covering **product listing, search, product details, cart management, and order processing** for an end-to-end purchase flow.
- Modelled and queried product, customer, cart, and order data in MySQL through the Django backend.

EDUCATION

B. Tech, Computer Science Engineering | Dr. BATU University (STB College of Engineering), Tuljapur *Oct 2022 – Jun 2026*
CGPA: 8.32 / 10

HSC | Maharashtra State Board (Chhatrapati Shivaji Mahavidyalaya), Udgir *Mar 2022*

CERTIFICATIONS

Python Full Stack with GenAI (2026) • **Basic AI/ML**, MKCL (2025) • MySQL **Hackathon** (2025) • Python **Bootcamp**, Udemy (2024)
