MOHAMMAD IFRA

Python Full Stack Developer| Software Engineer | Generative AI

Hyderabad, India | +91 9322539796 | ifranaaz2020@gmail.com | LinkedIn | Portfolio | GitHub | LeetCode

SUMMARY

Bachelor of Technology (B. Tech) in Computer Science Engineering graduate with strong fundamentals in Python programming, Data Structures, Database Management, and full-stack web development. Skilled in developing dynamic web applications using Python, Django, Gen AI, Ollama React.js, HTML, CSS, JavaScript, and MySQL. Passionate about building scalable applications, solving real-world problems, and contributing to software development teams while continuously enhancing technical expertise.

TECHNICAL SKILLS

Languages: Python, C
Frontend: HTML5, CSS3, React, JavaScript
Backend: Django, RestAPIs
Databases: MySQL, MongoDB
AI / ML: Prompt Engineering, Ollama, LLM & RAG, Generative AI, Pandas, NumPy
Tools & Cloud: Git, GitHub, PyCharm, CI/CD
Concepts: object-Oriented Programming (OOP), Data Structures & Algorithms, Software Development Life-Cycle (SDLC), Database Management

EXPERIENCE

Python Full-Stack Developer Intern | *Orbit IT Solution* *April 2026*

- Developed full-stack web application components using Python, Django, HTML5, CSS3, JavaScript, and MySQL, implementing responsive user interfaces and database-driven functionality.
- Worked on backend development, database integration, and RESTful API concepts, gaining practical exposure to application development, debugging, and software development lifecycle (SDLC).

PROJECTS

AI-Powered Chatbot — *Python Full stack + Ollama | GitHub* *Django, MySQL, JavaScript*

- Built an AI-powered chatbot using Python, Django, and Ollama, with MySQL integration for storing and managing conversations.
- Implemented real-time messaging, **AI-generated responses, conversation history, chat renaming, and deletion features**.
- Manually tested 3 core chat-management features (history, rename, and delete), **achieving a 95% pass rate** across these checks.

Leave Management System—*Python Full Stack | GitHub* *Django, React, MySQL*

- Developed a web-based Leave Management System using **Python and Django to streamline employee leave applications and administration**.
- Implemented leave application, tracking, approval/rejection, and employee profile management with MySQL database integration.
- Tested core functionalities, including leave submission, status tracking, and approval workflows to ensure reliable application performance.

E-Commerce website *Python, HTML, CSS, JS, MySQL*

- Designed and developed a **Shopping Website with user-friendly interface** to provide customers with a seamless online shopping experience and implemented essential e-commerce functionalities, including product listing, product search, product details, shopping Cart management, and Order processing to simplify the online purchasing workflow.
- Integrated MySQL database with the Django backend to efficiently store, retrieve, and manage product information, customer details, shopping cart data, and order records.

EDUCATION

Dr. BATU University (STB College of Engineering), Tuljapur, Maharashtra— B. Tech | CGPA: 8.32 / 10 *Oct 2022 – Jun 2026*
Maharashtra State Board (Chhatrapati Shivaji Mahavidyalaya), Udgir — HSC *Mar-2022*

CERTIFICATIONS

Python Full Stack with GenAI — 2026| Basic AI/ML — MKCL — 2025| MySQL Hackathon Certificate — 2025 |Python Bootcamp — Udemy — 2024
